Valentines Crafts

Thanks for choosing these love bug **Valentine's Day** crafts. There are a few options to choose from. You can make an "I love..." writing love bug or a clock love bug. You may also choose between making a paper clock love bug or a printable love bug. I printed the love bugs on colored paper, but you could also paint the templates or color them in.

For more teaching ideas visit:

Instructions

♥ Print either the clock or writing template

- ♥ **Clock love bug** - print the clock template, write the numbers 1 to 12 in the circles, color and cut.
- ♥ **Writing love bug** - write about the things you love on the lines, color and cut.
- ♥ **Bug construction** - Glue the clock or writing circle onto the center of the bug body template. Use a marker to draw a face on the head template. Then glue on the love heart antennae and attach the head to the top of the body. Next attach the bug wings to the top sides of the bug body. If making a clock, use a split pin to attach the clock hands in the center.
- ♥ **Paper plate bug** - paint two paper plates, one plain and one with spots. Cut the one with spots in half to use as the wings. You can also glue on paper spots as an alternative to painting the spots.
- ♥ **Printable bug body** - print the bug body, bug wings and bug spots on a variety of colored paper or cardstock. I tend to cut the spots freehand out of folded paper to save time, but the spot template is available if you need it. You may also opt to color in or paint the spots instead of gluing them on. Cut the spot template in half to make the wings.

Terms of Use

You are permitted to use these resources for your own classroom use. Please direct anyone to my store or website if they wish to have their own copies of these resources. You can show sample pictures of my resources on your classroom website or blog if you provide a link to my TPT store or website www.fairypoppins.com. Thanks.

Credits

A big thank you to these talented artists for the use of their graphics.

Clock hands

Top of antennae

Writing circle

A large circle with a thick black border. Inside the circle, there are ten horizontal lines for writing. The first line starts with the text "I love..." and the rest are blank.

I love...

Bug face - print on coloured paper or cardstock (2 students per page). Draw the face and cut it out.

Bug head

Bug head

Antennae stems - Print on colored paper or cardstock (12 students per page).

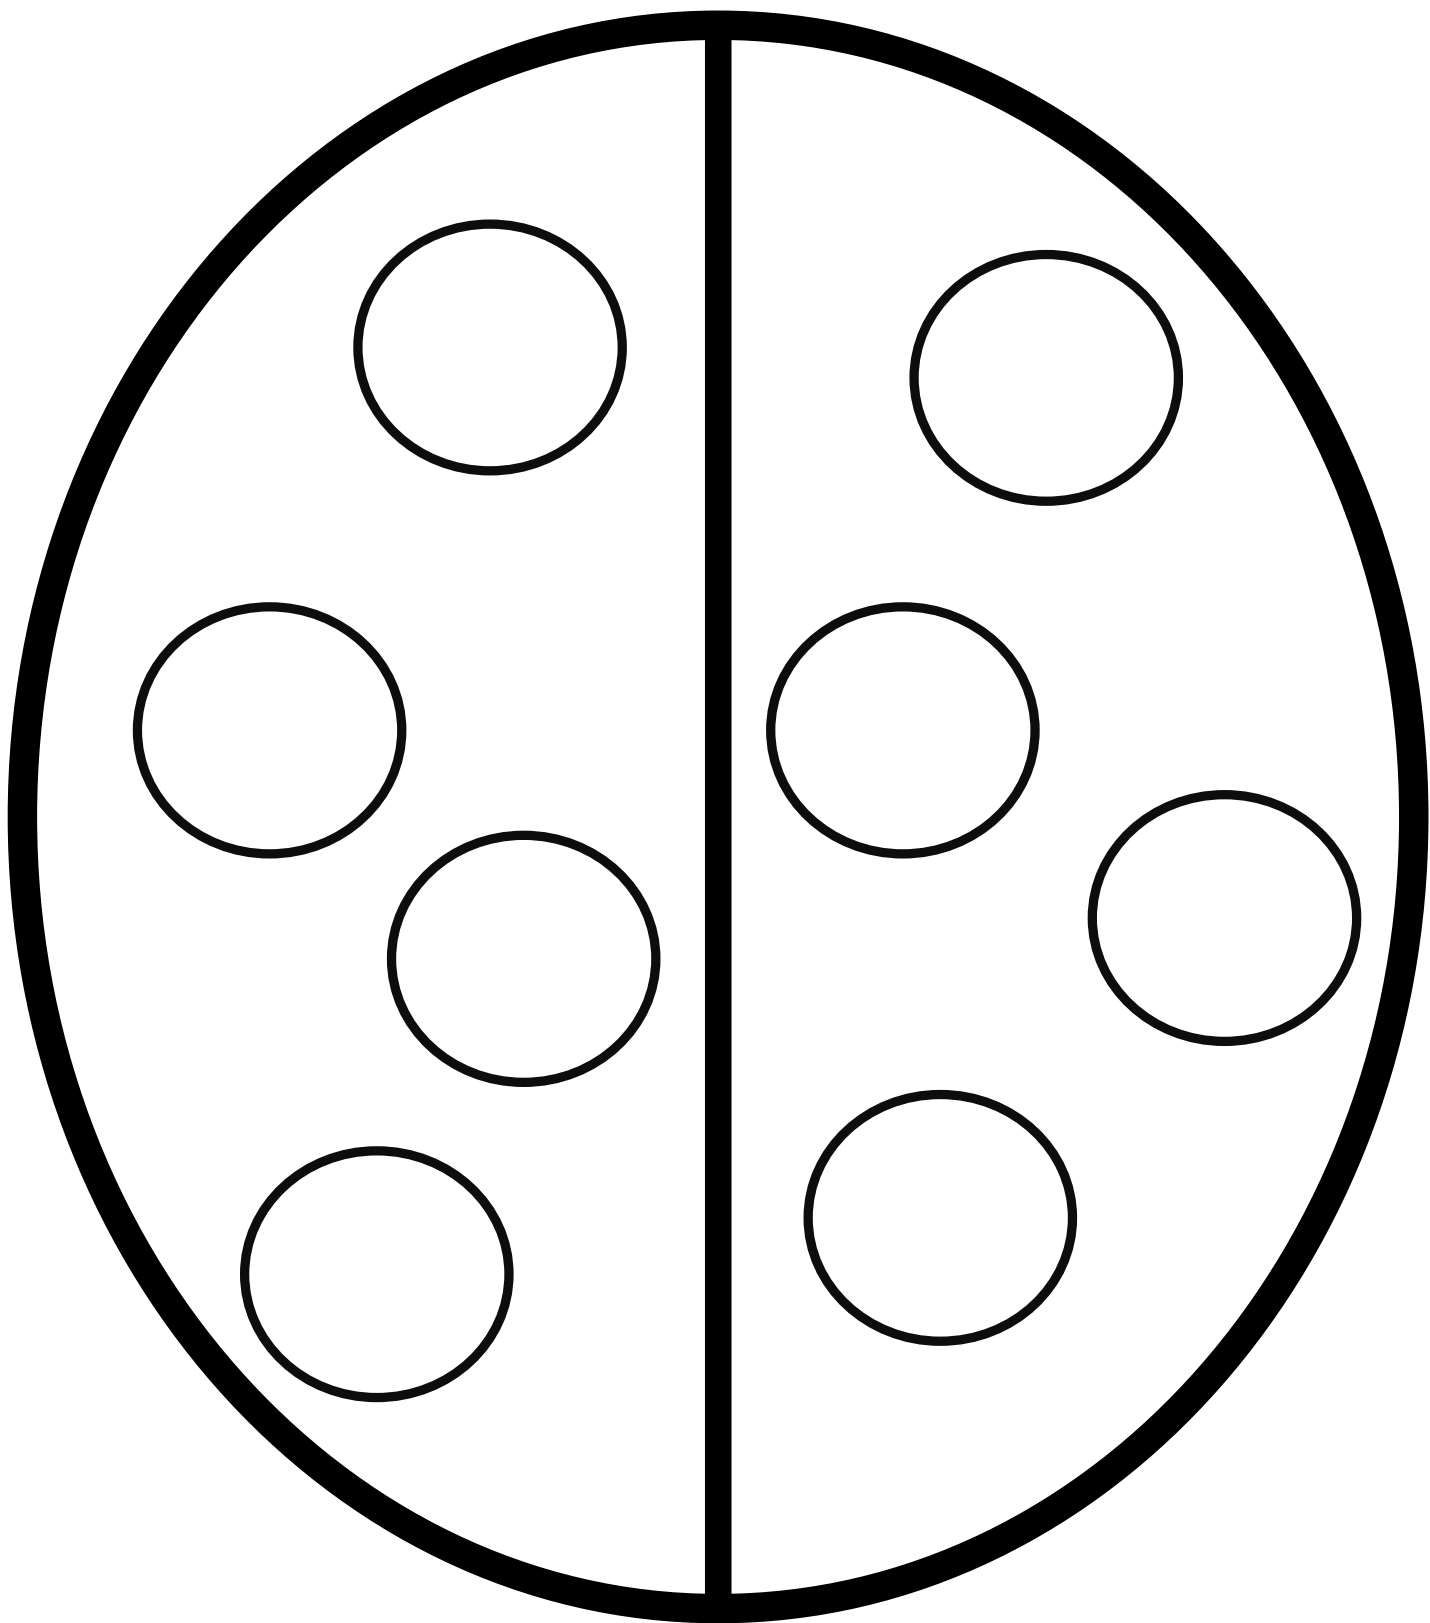

Bug body - print on colored paper

* Alternative - paint a paper plate for the body.

Bug wings - print on colored paper and either color, paint or glue on the colored spots.

* Alternative - paint a paper plate for the wings and cut it in half

Bug spots for the wings - print on a variety of colored paper and cut out. Alternatively, paint the spots directly onto wing template.
