

# Dinosaur Number Cards

These dinosaur number cards are ideal for kids who are beginning to identify numbers and number words. I like working with numbers up to five first and then ten. Once the kids have a solid grasp of those numbers and are demonstrating the principles of counting (e.g. 1:1 correspondence), I begin to introduce the cards up to twenty.

## Instructions

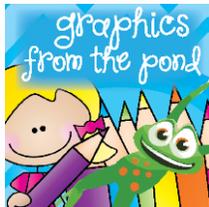

- ♥ Print on cardstock or laminate for durability. There is a bonus label included. I store my cards in zip lock bags.
- ♥ **Level 1** – Children count the number of dots on the egg.
- ♥ **Level 2** – Children count the number of dots on the egg and then match it to the numeral (number).
- ♥ **Level 3** – Children count the number of dots on the egg and then match it to both the numeral and number word.

## Other Games

- ♥ **Number Fly Swat**– Lay the number cards out in a random way, then call out a number. Children have to try to be the first to swat the number.
- ♥ **Number ordering**– Give the children a pile of number cards and instruct them to place them in order from 0 to 5, 0 to 10 or 0 to 20 (depending on their level).
