Thanks for choosing these llama addition cards. I hope your students enjoy using them.

For more teaching ideas and freebies check out my blog:

www.fairypoppins.com

Instructions

- ♥️ Print and laminate the addition cards for added durability.
- ♥️ Grab some erasable markers.
- ♥️ Count the number of cubes. Write the number of the first color in one box and the number of the second color in the second box.
- ♥️ Count how many cubes there are altogether and write the answer.
- ♥️ **Extension** – Model the sums with connecting cubes. Use two different colors for each sum to model how two numbers (parts) can make up a (whole) number - like the picture.

Terms of Use

You are permitted to use these copyrighted resources for your own classroom use. Please direct anyone to my store or website if they wish to have their own copies of these resources. Alternatively you can purchase a multiple user license. **You may not print this resource or any of my other resources and then resell it.** You can show sample pictures of my resources on your classroom website or blog if you provide a link to my TPT store or website www.fairypoppins.com. You can also tag me on Instagram. Please note these are copyrighted graphics. You may not resell / redistribute / recreate / use or share these graphics or this resources in whole or in part for any reasons. Thanks.

Credits

A big thank you to these talented artists for the use of their graphics.
