Thanks for choosing these patterning activities

For more teaching resources visit my TPT store [here](#) or blog fairypoppins.com.

Instructions

1. Patterning Flowers

- Print and laminate the flowers. Cut out the flower circles. Place a chenille sticker behind the top of each flower for the stem and secure with tape.
- You will also need some beads (supervision required throughout activity).
- Option 1 – Read the number and place that number of beads on the flower stem. You can create a pattern or simply count.
- Option 2 – Choose a flower and look at the pattern in the middle. Use the beads to create a pattern on the stem e.g. AB – blue, yellow, blue, yellow. Some modelling is required with each type of pattern so the kids know what to do.
