Achieved	<input type="checkbox"/>

### 2D Shapes Assessment

2D Shape		✓
1. Circle		<input type="checkbox"/>
2. Square		<input type="checkbox"/>
3. Triangle		<input type="checkbox"/>
4. Rectangle		<input type="checkbox"/>
5. Oval		<input type="checkbox"/>

2D Shape	
6. Hexagon	
7. Diamond	
8. Star	
9. Heart	
10. Pentagon	

Thank you so much for supporting Fairy Poppins. It brings me great joy to create resources that are helpful to you and your students.  
Happy teaching! Rosey

# Terms of Use

- You are entitled to a single user license to use this copyrighted resource for teaching purposes in your classroom. This includes special permission for distance learning, if it is accessible to only your students or their parents via a password secured login (i.e. Google Classroom, Seesaw, Boom Learning).
- Please do not share this resource on any shared drive or other online platform accessible to people other than yourself or your co-teacher if sharing a class (i.e. School shared drive, Facebook groups, Reddit, Wiki site, virtual hangouts for teachers to name a few).
- If a friend or colleague who is not co-teaching your students requests to use this resource, and you have not purchased a multiple user license, please direct them to my TpT store to purchase their own copy.
- You may not resell / redistribute / recreate / use or share this resource (or the graphics) in whole or in part for any reasons.
- This resource is copyright protected under the Digital Millennium Act.
- You can share photos of my resources in action on Instagram by tagging me @fairypoppinsdotcom.

# Instructions

- Print and laminate the shapes assessment cards for added durability.
- Attach the storage labels for each set to some zip lock bags.
- Print the assessment pages that best suits your needs. These are recording sheets for teaching staff.
- **2D Assessments** – Place the shapes cards in a pile. Show each child one shape at a time and ask them to tell you the name of the shape. If they get it right, place a tick next to the shape on the recording worksheet. If they don't know it place a dash mark.
- **3D Assessments** – Carry out the assessment in the same way as the 2D shapes. If you have models of 3D shapes, you can use these instead of the flash cards. For the final assessment, you will need a model of a cube. Give the cube to the student so they can describe its properties such as the number of faces, edges and vertices. Then record their answers in the table.
- Tip – If you're using these recording sheets as a folio sample, printing them on colored paper looks nice.
